Git 使用手册

1. 配置与查看状态

config init clone status log show diff blame

bliss[blame log init status show] 2cd[clone config diff] 有两个 CD 而狂喜

2. 修改内容

branch checkout add commit   push stash reset revert rebase

scrap[stash commit revert add push] 3r [reset revert rebase] 报废三个 R

3. 查看分支与更新

branch checkout remote pull fetch merge patch am

cramp[checkout remote am merge patch] pull bf[branch fetch] 抽经要去拉男盆友
